

Incentive Program & Referral Policy

Rev. 12/2015

Organic Intelligence® has helped professionals and other individuals around the world. If you wish to help friends or colleagues benefit from the OI difference, we have created an incentive program for sharing this important information. OI members and students can invite friends and colleagues to OI using our specially designed Referral Incentive Program.

Referring members or students must be registered as an OIB, OIH, OIX or OIM Member, or be an OIH or OIX graduate, to qualify as a Referring Partner.

To become a Referring Partner please go to our "Share the Love" referral page and follow the instructions to register.

Registered Referring Partners receive a Referral Award as our Thank You when your referred friends or colleagues register for either OI HEARTraining™ or OI Expert Membership. The following terms and restrictions apply:

If your friend or colleague signs up for the OI HEARTraining we will send you a \$100 referral award. The referred friend must complete payment for and must attend HEART 1 for you to qualify for a referral award. Referred students applying for scholarship or a payment plan do not qualify for the referral program.

If your friend signs up for OI Expert Membership we will send you a \$50 referral award. The referred friend must complete payment for 6 months of OIX Membership for you to qualify for a referral award. Referred students applying for scholarship do not qualify for a referral program.

Be the First. In case multiple people refer the same friend we will send the referral award to the first person referring, so make sure to be the first one to make a referral. Only the first person referring receives the referral award.

The referred friend has to be new to the OI program. Active students or graduates do not qualify for you to receive any referral award.

When all above restrictions and terms are met, the referral award will be issued within 45 days in the form of a check in US dollars. Checks will be mailed with First-Class Mail.
